# **DASHBOARDS PORTFOLIO**

**EXCEL, POWERBI, TABLEAU**

# CONTENT

Showcasing interactive dashboards with user-friendly features used to gain insights into clients data, and help drive business decisions

EXCEL

POWERBI

TABLEAU

# EXCEL

## Customer Sales

Through visual representations like charts and graphs, the dashboard will provide a user-friendly interface for analyzing key demographic information and enhancing strategic decision-making.

## Daily Sales Report

A user-friendly interface that presents key metrics and trends at a glance. Through interactive charts and graphs, decision-makers can quickly assess daily sales performance, identify patterns, and make informed business decisions.

## Titanic Survival Analysis

Using charts and tables, the dashboard will provide insights into factors influencing survival rates, such as class, gender, and age, aiding in a comprehensive understanding of the historical event.

# SKILLS

- Data Cleaning
- Data formatting
- Data
- Consolidation
- Data Extraction
- Data Analysis
- Pivot Table,
- XLOOKUP, VLOOKUP, HLOOKUP, INDEX and MATCH
- Data
- validation
- Data visualization, Interactive Dashboards
- Data Protection

# POWERBI

## Grade Analysis

Through visual representations like charts and graphs, the dashboard will provide a user-friendly interface for analyzing key demographic information and enhancing strategic decision-making.

## League Analysis

A user-friendly interface that presents key metrics and trends at a glance. Through interactive charts and graphs, decision-makers can quickly assess daily sales performance, identify patterns, and make informed business decisions.

## Workplace Analysis

Using charts and tables, the dashboard will provide insights into factors influencing fatality rates, such as state, program, and population, aiding in a comprehensive understanding of the workplace fatality events.

# TABLEAU

## Data Quality:

This dashboard comprehensively explored Data Quality (DQ) dimensions such as accuracy, validity, and completeness.

# SKILLS

- Data Preparation
- Visualization Design
- Dashboard Creation
- Calculations and Formulas
- Geographic Mapping
- Trend Analysis
- Parameters and Sets
- Filters and Actions
- Storytelling with Data
- Custom SQL Queries
